EXPERIENCE

Genpact
March 2024 – Present

Software Engineer · *Noida, India*

- Built a property insurance rate calculation application from scratch for a US-based property insurance specialist, enabling users to quickly calculate their desired rates and increasing user retention by 20%.
- Leveraged Next.js, TypeScript, Tailwind CSS, Zustand, AWS, and React Hook Form to create a highly responsive and interactive user experience.

Caw Studios
May 2022 – March 2024

Software Development Engineer · *Hyderabad, India*

- Contributed to the development of hBits (a prop-tech product) by taking ownership of the channel partner and ops-team module and overseeing both the backend and frontend aspects, used by over 50k investors.
- Efficiently migrated legacy v1 data from MongoDB to PostgreSQL of hBits and cleaned 40% of garbage data.

Quantamix Solutions
March 2021 – April 2022

Software Development Engineer · *Amsterdam, Netherlands*

- Developed scalable React and Next features to enhance user experience efficiently.
- Optimized front-end performance by implementing lazy loading for images and assets, improving page load times by 15% for a smoother user experience.

Celebrity School
September 2020 – February 2021

Full Stack Developer · *Mumbai, India*

- Developed CelebritySchool.in, an EdTech platform, from scratch with a focus on seamless user experience.
- Built robust login and sign-up features, supporting 1 million+ active users monthly.

PROJECTS

InstaApp (instagram clone) | *React, Next, Node, Express, MongoDB*   **November 2021**

- Clone of Instagram using Node.js, Express.js, and MongoDB for the backend, and Next.js (React), CSS, and MaterialUI for the frontend.
- item Added crucial functionalities in the backend, including login, registration, user follow/unfollow
